HOW TO INSTALL CHRIS WATKINS' SCREENSAVER SLIDESHOW FILES

- Download screensaver file to your desktop. It will be a xxxxxx.**scr** file format
- Move the file into your folder titled "WINDOWS" on your hard drive.
- Go to your desktop screen
- Right click on your desktop. Click on **properties** > then on the tab "**screensaver**".
- There you will find your new screensaver file among the screensaver options. Select it and then set the timer for how soon you want the screensaver to start up. Click ok.
